**Subject:** Re: Update on CASAC Activities

Thanks for doing this, Aaron.

Best,

-- Tony

Chartered CASAC Members,

I wanted to provide an update regarding upcoming CASAC Activities. Currently our ethics officials are performing the ethics reviews for the upcoming CASAC activities. Once that is complete, Tony and I will send out the review documents, charge questions, and assignments.

Upcoming Review Materials

1. Ozone IRP (will send to you next week after ethics review)
2. PM ISA (will send to you next week after ethics review)
3. CASAC NOx SOx Secondary NAAQS Panel Draft Report on Agency's ISA for NOx/SOx/PM Secondary NAAQS (available in 2 weeks)

Upcoming Meetings

1. Nov. 29 (10 am-2 pm ET) – teleconference on Ozone IRP
2. Dec. 12-13 (DC area) – face-to-face meeting on PM ISA
3. Dec. 17 (1-5 PM ET) – teleconference to discuss and approve draft panel report

The CASAC NOx SOx Secondary NAAQS Panel is also currently finalizing their consultation on the agency's NOx/SOx/PM Secondary NAAQS REA Planning Document, but the Chartered CASAC does not need to review that. A consultation consists of only individual member advice, not consensus advice, and does not go through the Chartered CASAC.

Some of you have inquired about upcoming EPA workshops on the Ozone ISA. These workshops are designed to solicit input on helping the EPA develop the Ozone ISA. CASAC members are not expected to participate in these workshops. If you do choose to participate, you should do so in your own professional capacity (not as a CASAC member) and you should only listen in, not providing any advice or input. If you provide advice or input during the workshop, you risk being ineligible to participate in the CASAC's review of the Ozone ISA as you would have participated in the development of the ISA.

Please let me know if you have any questions,

-Aaron
